

TECHNICAL INFORMATION

rhobaAir WC CLEAN T

safe and thixotropic

Lavatory Cleaning Concentrate

biodegradable

- effectively removes water scale and stains from stainless steel
- allows for in-place cleaning, eliminating the need to remove toilet systems from the aircraft.
- cleans and decalcify galley equipment
- can be applied directly to scale deposits for local cleaning
- thickened for better cling on vertical surfaces
- safe on stainless steel, most plastics and good quality paint
- safe on stainless steel, most plastics and good quality paints, not safe for use on high strength steel, zinc or magnesium
- regular cleaning will assist in maintaining toilet system in good operation condition and help control odours offensive to the travelling public.
- **Aviation Approval.** AMS 1640 B
Product conforms to the Grey-list of Lufthansa.

Technical Data:

Performance:	slightly viscous blue	
pH value:	1,0	not flammable
Odour:	pleasant, mild	in water miscible
Density:	1,05 kg/l	protect from frost

Application

Descaling and cleaning toilet systems and Local Cleaning

Operation: Use cleaner as received, or diluted with one part water

1. Prior to cleaning, service toilet tank as generally practiced
2. Check waste lines for leaks
3. Charge tank and waste lines with cleaner solution
4. Flush to ensure that cleaner solution contacts all areas
5. Leave *rhoba Air WC CLEAN T* in waste lines and tank for a period of 3 - 8 hours
6. flush toilet 3-4 times during 1st hour to recirculate cleaner, then 1-2 times per hour until drained.
When cleaning operation is complete, drain and backwash
7. After toilet tank is recharged with clean water, add suitable deodorant.

For local cleaning, apply toilet cleaner full strengths to soil and scale using plastic squeeze bottle.

Cleaning - Overnight-Stops

Apply 1 Litre *rhoba Air WC Clean T* in a pail with 2 kg crushed ice and pour this in the toilet. Regular application will assist in maintaining toilet system in good and clean operation condition. Application should be done one time a week.

Cleaning galleys

For cleaning and decalcify coffeemaker apply product and wipe off with a wet cloth.

For cleaning and decalcify e.g. coffee machines, hot water tanks, heating jackets, heating coils, dilute product with three parts of water.
